Gas Grill Export Line

Undeniable Quality

Our philosophy of long lasting products is present in every detail of this grill.

Here you will see everything this high quality equipment can do for you!

Framingham Station collection

100% Practical

Efficiency In Daily Use

Gas grill provides a unique convenience in daily operation. The infrared burners produce extremely powerful constant heat making it easier to prepare a delicious barbecue.

100% Smoke-Free

Smokeless and Odorless BBQ

With the infrared burners on top and a water tank below the skewers, the fat falls into the water and there is no smoke or smell, while keeping the meat juicy and tender.

Main Features

MECHANICAL SYSTEM

Rotative system with cast iron gears, 1/4HP motor, and speed reducer.

INSULATION

Rockwool thermal insulation keeps heat inside the grill.

FINISHING

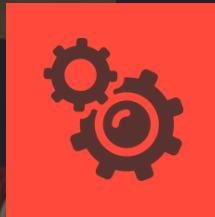

Brushed AISI 430 stainless steel with thickness up to 2 mm.
