TEMPERED BLACK GLASS BARS

Here you will learn all about this innovative black glass countertop that will bring life, sophistication and convenience to your restaurant's daily operation.

THIS EQUIPMENT IS NOT CERTIFIED BY NSF, UL OR CE.

# HOW DOES IT WORK?

The Vetro Hot Tempered Glass Bar works through a very thin electrical wire heater underneath a 1/4 inch black glass and reaches a surface temperature of 230°F.

The Vetro Refrigerated Ceramic Glass works through a cooling motor and copper coil with thermal insulation and reaches a temperature between 23°F and 41°F on its surface.

# SPECIAL FEATURES FOR YOU

- You can use all kinds of pans or trays\* in any material you want such as stainless steel, iron, porcelain, glass, aluminum and others.
- The independent modular system allows multiple assembly options that will make your restaurant operate and looks its best.
- Digital thermostatic controls.
- Super easy cleaning.

\* NOTE: THIS IS NOT AN INDUCTION COOKER, REASON WHY YOU CAN USE ANY KIND OF PAN OR TRAY.

# PEOPLE EAT WITH THEIR EYES!

THE BUFFET OR SALAD BAR IS THE HEART OF THE RESTAURANT. FROM THIS CONCEPT WE DESIGNED THIS INCREDIBLE EQUIPMENT THAT WILL ENHANCE YOUR FOOD PRESENTATION TO THE NEXT LEVEL

## THE NUMBERS OF VETTRO

**59%**

energy savings with the hot ceramic glass module compared to the usual tank and hotel pan system.

**15 MIN**

warm up time for the hot glass bar and 30 minutes to cool down the refrigerated bar.

VETTRO RUSTIC

VETTRO STYLE

VETTRO NERO

## SHADES OF VETTRO MEET OUR 3 AVAILABLE MODELS

---

The left photo shows Vetro Rustic, made of hardwood with a more classic look. The middle photo is Vetro Style, the best-selling buffet in USA with a clean modern visual. And in the third image we have Vetro Nero, with granite countertop and its contemporary design.

Countertops can be sold separately. They do not necessarily have to be sold with the full set.
